

Come Home
To Good Life

Wellspring literally means *a source of abundant supply*. Inspired by the word, we've created a home that will give you abundance in everything. Even the logo visually portrays the perfect harmony of blues and greens. Which is indicative of the synchrony of nature, water and green cover. The green shoots springing forth, cue prosperity.

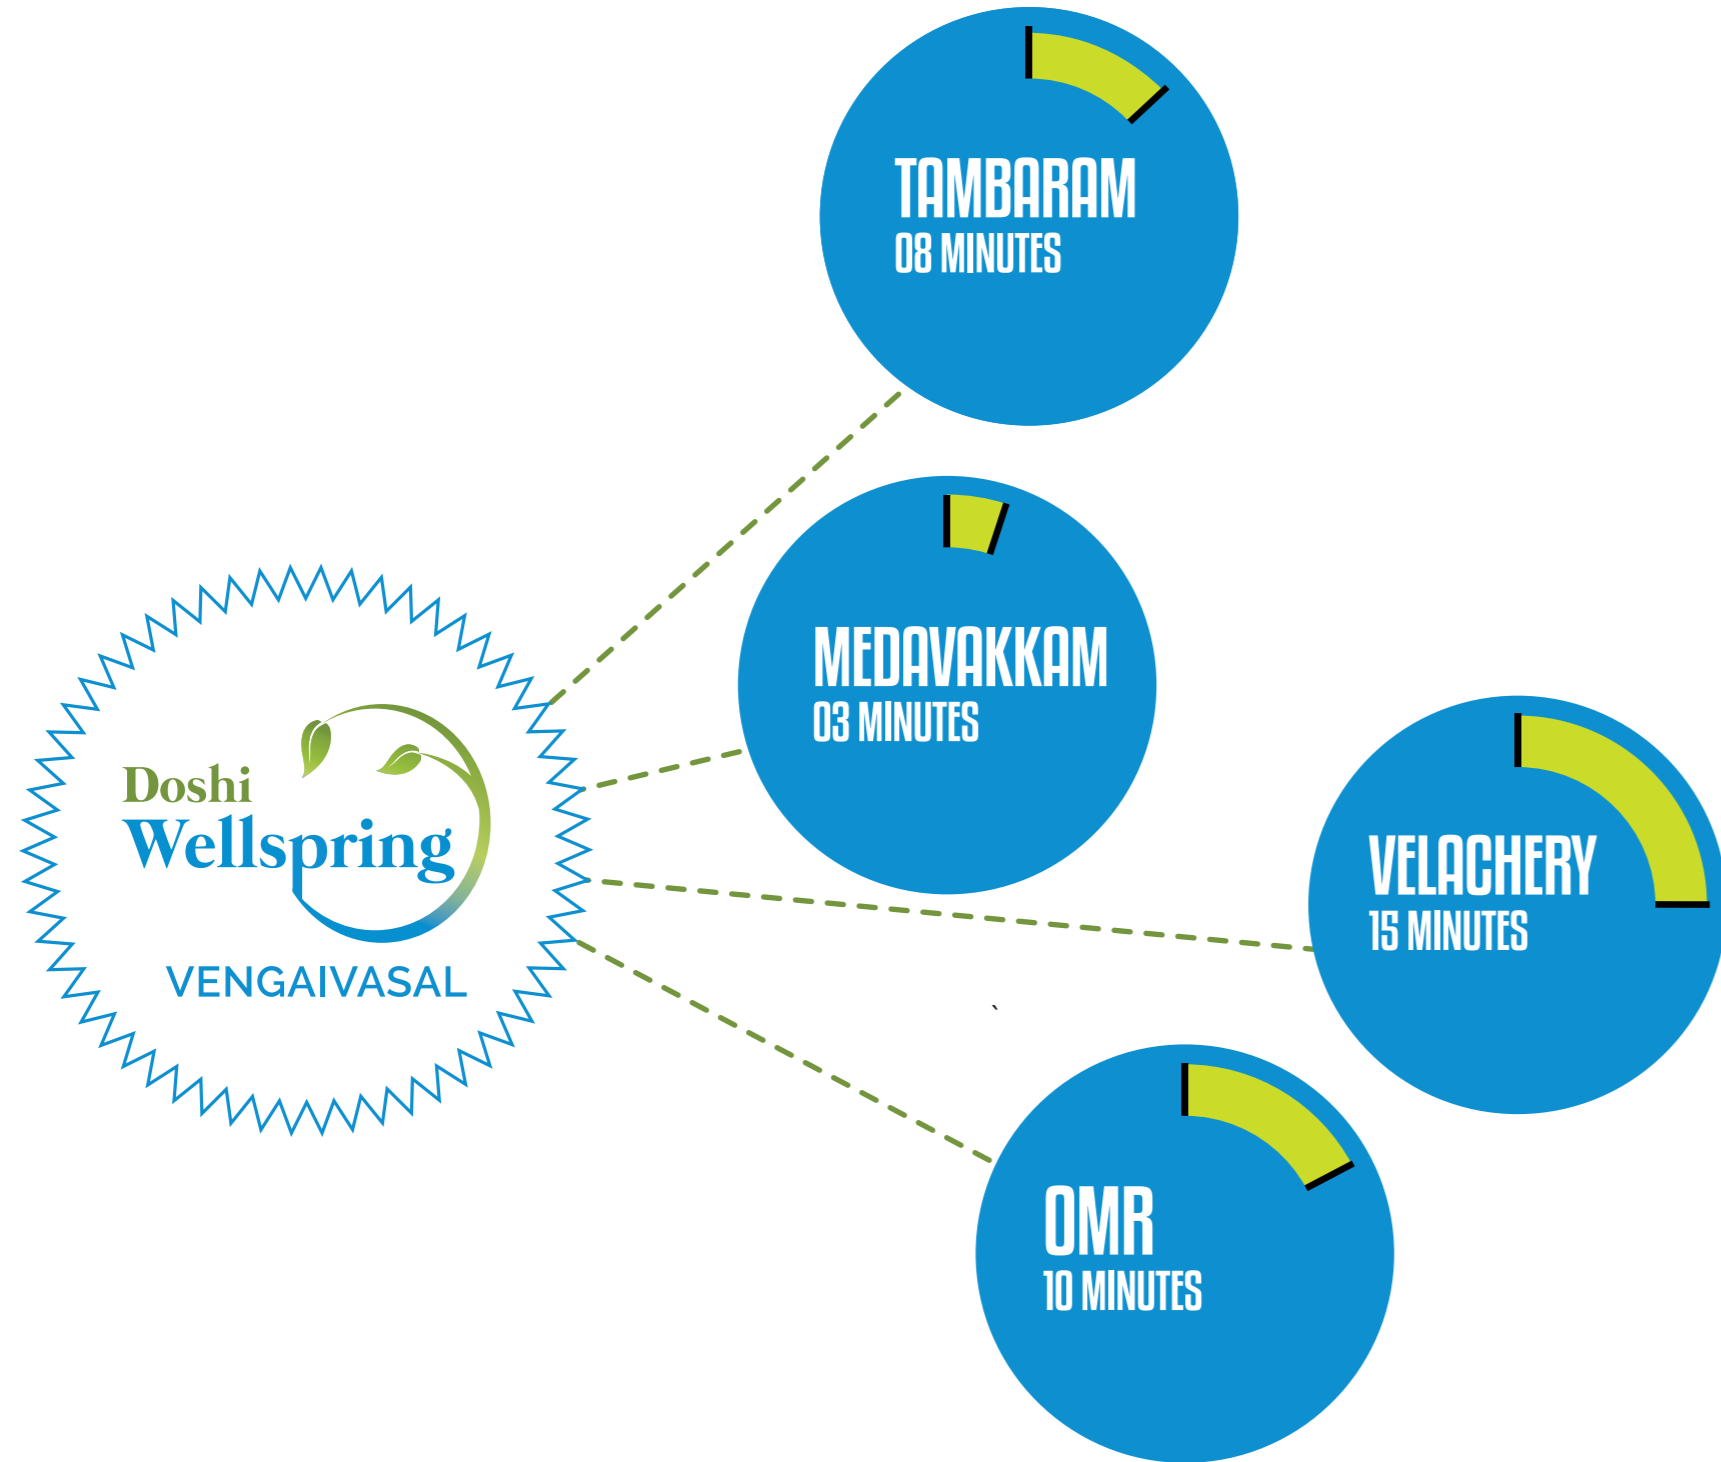

There are apartments that offer convenience. There are homes that offer connectivity. There are abodes that offer serenity. Doshi Wellspring is a charming little residential project that delivers all these triple edges to the discerning few who can tell the difference between life and good life. Nested with many pleasant surprises in the verdant confines of Vengaivasal, Wellspring is, well and truly, your best bet for pure bliss.

SURROUNDED BY NATURE. SPRINGING WITH HAPPINESS.

Doshi Wellspring, the cosy new residential development from Doshi Housing, is situated in the picturesque Vengaivasal, an eminently likeable area near Medavakkam, teeming with greenery, fresh air and crystal clear water. Vengaivasal is just a kilometer away from the 900-acre Nanmangalam Reserve Forest (which is home to 85 species of birds), and is located in the vicinity of the Madambakkam lake. Blessed with a significant green lung, Vengaivasal has naturally become the first port of call to seekers of the good life. After having built two fairly large projects in the vicinity, namely Serene County and Trinity Park, Doshi is all set to delight you with Wellspring.

WELL CONNECTED APARTMENTS. WELL WITHIN YOUR REACH.

One of the big charms of Wellspring is it's near Medavakkam, which is widely considered to be the 'sixth hottest investment destination for residences' in India. Also by virtue of being equidistant from Velachery, Tambaram and the IT Corridor in Sholingalur, Wellspring is ideally suited for the IT folks who want to access the opportunities on OMR but want a peaceful lifestyle Not many projects in the city offers this 'best of both worlds' choice. That too at an irresistibe price.

CONNECTIVITY:

Vengaiwasal Bus Terminus (1 km)
Medavakkam Junction (3.5 km)
Tambaram Railway Station (7 km)
Sholinganallur Junction (8 km)
Velachery MRTS Station (12 km)

 Adyar Bakery (2.5 km)
 Domino's (3 km)
 Cascade (3.2 km)
 Sangeetha (3.4 km)

THE FUTURE WILL BE BUILT. VIA VENGAIVASAL.

Vengaivasal is going to be the gateway that connects you to so many future developments. The **Monorail** to defuse traffic congestion has been planned from Vandalur to Velachery via Medavakkam. Meanwhile, Medavakkam will also feature in the Corridor 5 of **Chennai Metro Rail**. What's even more interesting is **Tambaram Station** is going to be upgraded soon to be the **third terminal** after Chennai Central and Egmore. Add to this the excitement of the **Urapakkam Bus Terminus**. The expansion of the **Velachery-Tambaram Road** to a **six-lane highway** only makes the location even more buzz worthy.

Not to mention the **eco tourism** initiatives being planned in the **Nanmangalam Reserve Forest**.

75 APARTMENTS. BUILT WITH 1 GOAL.

Sprawled over 16 grounds of lushness, Doshi Wellspring has been put together with the sole aim of delighting its residents. The project has been conceived to be a winsome Stilt + 4 project comprising 2 blocks separated by a public road to evoke a colony feel. With a striking façade, the apartments sport a distinctively urbane look in stark contrast to the sylvan surroundings that evoke a rustic chic.

A NOT-TOO-BIG COMMUNITY. IN A NOT-TOO-SMALL SETTING.

There are many pluses to living in a big community. But then there are many edges to living in small apartment complexes too. Imagine creating a project that strikes the perfect balance by taking the best of the big and the best of the small. Doshi Wellspring is that perfect blend. It's a mini gated community with just 75 families. That too separated into 2 blocks. At any point in time, only 37 to 38 families will live together. And the 16-ground facility has been planned in such a way that there will be many occasions for them to bond and to build a closely knit happy community.

RIGHT SIZED HOMES. FOR THOSE WITH THE RIGHT TASTE.

Doshi has always been renowned for creating homes that reflect sensitivity, practicality and style. Wellspring is a trendy outcome of this thinking. The apartments here have been designed to ensure a cosy life. Which is why the 2 BHK is neither cramped nor too spacious. We've got it just right with sizes ranging from 914 sq ft to 1052 sq ft. Even the 3 BHK is optimally sized and it ranges between 1081 and 1242 sq ft. And the rooms effortlessly flow into each other. What's more, Wellspring comes with plenty of natural ventilation and is ideally suited for those who want a cheerful home.

CLEAR WATER TO DRINK. CLEAN AIR TO BREATHE.

Drinking water might be a problem in the rest of the city. But not in Wellspring. Because Vengaivasal has copious quantities of good quality ground water. Being close to the 250-acre Madambakkam lake helps. Also the area is a fertile zone. As a result it has close to 60 agricultural wells. Hence you'll never have to buy water at Wellspring. Another quality feature of the project is it's off the Vengaivasal Main Road and a kilometre from the 900-acre Nanmangalam Reserve Forest. Naturally, the air feels pristine.

A COMMUNITY PARK. FOR THE YOUNG AT HEART.

Just adjacent to Doshi Wellspring, there's an enchanting community park spread over 3.5 grounds. The park has been built by Doshi Housing for the Vengaivasal enclave. Equipped with a jogging track, landscaped garden, swing, see-saw, climbers & merry-go-round, it's a terrific hangout for kids and the young at heart.

AIR CONDITIONED GYMNASIUM. WITH THE COOLEST EQUIPMENT.

Fitness and wellness clearly enjoy the top priority at WellSpring. We have a residents-only gymnasium with all the latest equipment to shed the flab, sculpt that six-pack, and generally, stay in shape. We've airconditioned it so that even while sweating it out, it feels utterly pleasurable.

WI-FI & DTH READY. TO KEEP YOU WELL ATTUNED.

Wellspring doesn't just connect you to your workplace, it also lets you work from home. Because our apartments have been made Wi-Fi ready just to let you enjoy that luxury. We take your home entertainment as seriously. That's why, we've made the provision for a Direct-To-Home connection.

No worries of running from pillar to post to secure these cool add-ons. Just plug and play.

HOME THAT THINKS GREEN. AND ACTS GREEN.

Wellspring has been conceived as an eco-friendly community. Which is one of the reasons why we have solar power, lighting up the common areas. Even for tasks as mundane as toilet flushing we use water recycled from a Sewage Treatment Plant. Considering it takes 6 liters to flush out a common toilet, you can compute the amount of drinking water we're saving with this facility. Rain Water Harvesting is another green touch that should hopefully reduce your water bills and minimise the overload on stormwater drains during heavy downpours.

A PRIVATE MOVIE HALL. FOR BLOCKBUSTER ENTERTAINMENT.

Didn't we tell you Wellspring is a cutesy little community? To enhance the scope for bonding between residents, we've made available a private movie hall. So be it Superhero Sundays, or Frightful Fridays, you can create a blockbuster experience tailormade to the taste of the colony.

A RECREATION ROOM. FOR TOTAL TIMEPASS.

Indians love indoor gaming. Look at what we do at resorts. Half the families can be seen battling with each other over Carrom, Scrabble, Monopoly or Scotland Yard. We've tried to re-create that magic, through our recreation room. Basically, it will be the face-off center for letting off steam. Equipped with a pool table, table tennis and some adorable board games, it's the fun zone attached to your home.

CCTV CAMERAS. TO KEEP AN EYE ON YOUR SECURITY.

Every resident is important to us. The grown ups can handle themselves. But the kids need monitoring. So do strangers who visit the campus. We've meticulously installed Closed Circuit Cameras in and around the residential zones just to up your comfort quotient and to instill a sense of security.

FAMILY FRIENDLY HOME. FROM A CUSTOMER-FRIENDLY BUILDER.

Every project is a milestone project for Doshi. And Wellspring is no different. Having delivered over 3.5 million sq ft of constructed space in a span of 35 memorable years, we should know it better. We look for three qualities when we plan any development. The place should be visually welcoming, physically nurturing and mentally comforting. Wellspring scores very highly on all these traits. Residents will experience it first hand when you start living there. This has been the case with all the 3000 families who've felt the Doshi magic.

SERENE OUTSIDE. TRANQUIL INSIDE.

People who work on the IT highway have a rather busy life. Doshi Wellspring is an elegant attempt at making it less hectic. The first thing we've done is to cut your travel time significantly by placing you equidistant from Tambaram, OMR, Velachery & Medavakkam. The second big thing is we've chopping the hustle and bustle from your life by sequestering you from the main roads and placing you in an awesomely residential zone like Vengaivasal that comes with a well-developed social infrastructure. The third irresistible aspect is the attendant comforts that come with a small self-contained community. The kicker is of course the serene surroundings, the good quality ground water and the clean green air. By taking the pain out of the every day grind of life, Wellspring is your best shot at good life.
